

Attached is my Report and several documents that go with it. I total get the need for a completed report. But I was just trying to get you something, until I had a moment to compile everything. I would like to propose a change in the scheduling of these reports. When Convention was in the fall, I had a lot more time to do a better more complete report. But with Convention in the Spring, I landed in Boise and had not spotted running from Daylight to Daylight. Working full time and trying to run a small business on the side is tough in the time available area. I will think on a proposal to bring to the NWCC, is there a protocol or procedure?
